## SUMMARY

Innovative Tech Lead with over a decade's experience across various industries: insurance, finance, manufacturing, and travel. As the driving force behind technical strategies at Alliance International Servicing, I executed pivotal initiatives that significantly boosted operational efficiency and reduced costs in the insurance and finance domain.

As a Full Stack Developer at Western Digital Corporation Thailand, I pioneered the development of efficient manufacturing applications, resulting in a noticeable improvement in operational efficiency, process transparency, and a significant reduction in production downtime.

As a senior web developer at Insource Asia, Travelxp India, Indtex Solutions in the travel industry, I successfully navigated complex projects, effectively mitigated risks, and streamlined the booking process. These improvements were reflected in heightened customer satisfaction and a considerable positive impact on revenue.

Accomplished at forging productive collaborations, I've worked closely with diverse teams and product managers to create innovative software solutions. My consistent adherence to project timelines and my swift issue resolution strategies have contributed to a high project success rate. My proactive management approach, coupled with a deep understanding of the software development life cycle, has been instrumental in driving process improvements and achieving cost savings. With effective communication and cross-functional team management, I have fostered a culture of high performance, resulting in noteworthy productivity gains.
